In the article radical Islamist of groups ideas how as interpretation to do and this of the process social and political consequences discussion This is done. analysis Islamic from radicalism come outgoing risks to understand and to them against struggle strategies working to go out help gives.*

**Keywords:** *Islam religion, radicalization, ideological Aspects, Political Aspects, Religious ideology, social injustice, International Politics, Religious identity, Terrorism, Radical Islamism.*

**Introduction.** Islam religion, its rich history and complicated teachings with, different kind social, political and cultural in contexts developed. However, the last in years Islam religion of ideas radicalization world on a scale important from problems to one Radicalization The process is mainly religious. ideologies through done increaseable extremist thoughts and actions with related is, this process many in countries social instability, terrorism and human rights violation such as negative to the consequences take is coming.

Radicalization reasons many edged are, they are between political repression, economic injustice, social marginalization and international in politics conflicts There is also religious identity and his/her expression and radicalization in the process important role plays. This in the article radical Islamist of groups ideas how interpretation to do and this of the process socio-political consequences analysis Our goal is to prevent radicalism come outgoing risks further deeper to understand help to give and to them against struggle strategies working to go out contribution is to add.

**Radicalization Reasons**

Radicalization process main reasons the following own inside takes:

1. Political Repression: Many Muslim in countries political repression and of freedoms limitation radical ideas supportive environment creates. People own thoughts expression in

the process of to difficulties face when they come, extremist groups by offer being done to solutions appeal they do possible .

2. Economic Injustice: Economic problems, unemployment and poverty to radicalization contribution Addictive. Socio-economic injustices, especially young generation between despair feeling strengthens and them extremist to actions attraction does.

3. Social Marginalization: Self aside felt pushed people, often radical to groups to join inclined They are. themselves in society acceptance to feel done for extremist ideas acceptance to do possible.

4. International Politics: International in a relationship conflicts, especially Muslim to countries against take going military actions and political pressures radicalization This situation increases the Muslims' themselves protection to do for radical ideas acceptance to do take arrival possible.

#### Radical Ideas and Their Impact

Radical Islamist groups own ideas mainly religious to texts based on They shape. They often Quran and hadiths own to their goals suitable accordingly interpretation This process is often traditional Islam from the teachings aside to go out take Radical ideas, usually strong "method" and "enemy" images with separated They are themselves as supporters of " truth " as They point out and call others "wrong" .

From radicalism come outgoing social effects very is broad. First, such ideas social to instability take arrival Secondly, radical groups often violence and terrorism own of activity main tool as they use this and human of rights to the violation reason Third, radicalization in society religious and ethnic conflicts strengthen possible.

#### To radicalization Against Wrestling Strategies

To radicalization against fight for one how many strategies working exit necessary:

1. Education: Education in the system religious to extremism against to fight aimed at programs current to grow Age is important. generation right religious education with provide through radicalization prevent to take possible.

2. Social Integration: Marginalization made groups to society integration to do for social programs done increase necessary. Through this their their sense of identity and radical to ideas appeal to do probability decreases.

3. Economical Development: Economic opportunities increase through unemployment and poverty reduce It is possible. This is your own in turn, radicalization road does not let.

4. International Cooperation: International at the level cooperation strengthen necessary. Radicalization against fight global strategies for working exit and done increase important.

**Conclusion:** Radicalization process complicated and many edged problem is, its reasons and consequences every one in the country various manifestation will be. Islam religion of ideas radicalization only religious in terms of not, maybe socio-political point of view seriously problems brought This in the article cited analyses and strategies through radicalization prevent to take and to him/her against in the fight effective measures see possibility Radicalization is emphasized. against fight for all society members together movement they do It is necessary.
