**Login.** English language in learning listening understanding skill of the students the language effective in the process of mastering important importance has. Listen not only other people with communication to do, maybe learned the language in practice use and this through the language faster to study opportunity creates. This because, English language in their classes listening understanding skills develop for effective methods working exit and to the students presented to grow necessary. This in the article English in the language listen and understanding skills in development applicable methods analysis to do movement we will do.

**To the topic related literature Analysis of.** Sh.Yo'ldosheva his "English" language in education communicative approach" in the work listening to understand in development communicative approach importance shows.

His to the mind according to, listen not only teacher's their words understand, maybe the student the text how acceptance to do and own his/her opinion how to express to study process own inside Audio and video materials use, students listen skills in development effective is a method.

A.Azizov his "English" language teaching "methodology" in the work, listening to understand in development students one how many times one kind the material to listen to encourage recommendation He listens. understanding skills in development exercise to do importance emphasizes. The first times while listening general concept harvest to be, next at the hearings and to the details attention focus the necessity indicates.

T.Begimova audio and video materials using students pronunciation improve and them listening understanding skills development importance Begimova emphasizes that with together, interactive technologies to apply and to students new kind of listen exercises presented to reach to teach offer will reach.

H.G.Widdowson In his work "Teaching Language as Communication", English language in teaching communicative approach main method as shows. His in my opinion, listening skills in development students in real life to situations similar materials presented to grow necessary.

This is to help students the language in practice application opportunity creates.

M.Canale and M. Swain in "Theoretical Bases of Communicative Approaches to Second Language Teaching and Testing", communicative competence importance They show that they listen. only grammar or word of wealth to be studied as not, maybe students the language free and effective understanding abilities develop as they see.

**Analysis and result.** Article analysis to do and comparison to the methods based on written English language in teaching listening understanding skills develop for used various methods and methods seeing This will come out. methods analysis in doing Uzbek and world linguists scientific developments and practical experiences basis as taken.

Audio and video materials with work. English in the language listen and to understand audio and video materials in development use important place holds. The students various accents, speech styles, pronunciation and intonation to hear opportunity audio and video materials, including listening understanding skills develops. Such materials using students not only of the language grammatical aspects, perhaps of words pay attention to the meaning They will look at it. With that together, in video materials visual help (gestures, facial expressions) also listen to understand makes it easier.

Short and simple texts listen New leaders for listening understanding in development short and simple texts listen effective method is considered. To the readers simple stories, advertising rollers, daily conversations such as short audio or video materials to give, their understanding level

to increase help This gives materials while listening students their own listening understanding skills slowly they develop.

Questions and answers method. Listening understanding in development question and answer Exercises are also effective method become service does. To the students listened materials according to questions to give, their the material correct understanding that he did not understand to determine help gives. Questions using students attention only known one to aspects they look at this and the material effective to understand help gives.

Listening one how many times repetition. English in the language listening understanding skills in development to listen one how many times Repetition is also important. First while listening students general concept harvest they do, next while listening and detail and small nuances to understand movement This method listen skills in development effective to the students complete to understand provides.

Interactive listen exercises. Interactive methods application, for example, online on platforms listen exercises, students motivation to increase help Interactive exercises through students listening understanding skills only passive accordingly not, maybe active participation arrived They develop this type of exercises through students various in topics materials listening, real time in mode to questions answer they give.

**Conclusion.** English in the language listening understanding skills develop for effective methods application important importance Audio and video materials, short texts, questions and answers exercises, repetition and interactive exercises through listen skills develop This is possible methods using students listening understanding skills improves, they not only grammar, maybe language in real life application They also get to know each other. This is their in turn, the language study process further effective and interesting does.
